About Us

We developed this new program to encourage people we serve to socialize during times they are not working, which gives them an opportunity to develop friendships, learn life skills, take day trips throughout our city and county and enjoy themselves!

Program hours are 8:30 am to 3:00 pm Monday through Friday.

LINK is a Day Service program choice offered by the Threshold, which provides a combination of recreational, life skills and community interest opportunities.

LINK is specifically designed for individuals interested in socialization, participation in life skills activities, recreational activities and community-based activities with peers that have similar abilities and interests.

Clients are strongly encouraged to choose their daily activities and provide input for future activities, both in-house and within the community.

Staff to client ratio is generally 1:8. This number may vary based upon the types of activities taking place as well as client needs.
